

Pristine™ Wet Wipes

finest quality wet wipes from the wet wipe experts

- ✓ Cleansing
- ✓ Hygiene
- ✓ Sanitation
- ✓ Health

Pristine Wipes are manufactured at one of India's largest and most advanced wet wipe manufacturing facility. The facility is equipped with more than 10 state of the art wipes converting machines. It is backed by a solid team of laboratory and manufacturing experts. All the raw material used in the manufacture of Pristine Wet Wipes is of the best quality available.

Moreover, to ensure the best of class quality, the water used in the manufacture of Pristine Wipes goes through three purification processes. The first process is Reverse Osmosis treatment followed by Demineralization in the water purification plant. After these two treatments, the water is transported to the individual stainless-steel tanks assigned to different wet wipes converting machines through stainless-steel pipes. Before entering the stainless-steel tanks, the water is UV treated as the final purification process. Furthermore, all formulations are pH balanced to make the wipes comfortable to even the most sensitive skin types.

The non-woven fabric or paper used in the manufacture of Pristine Wet Wipes is carefully selected to ensure that it satisfactorily fulfils the purpose for which it is made.

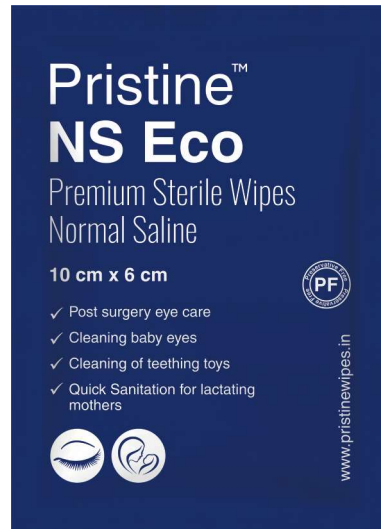

Stop Worrying About Patient Compliance

Add Pristine™ NS To Your Armour

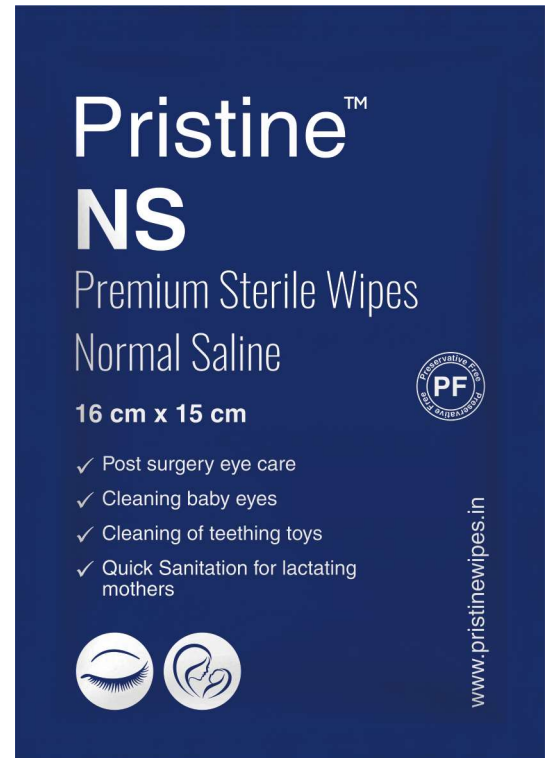

Pristine™ NS

Sterile Cleansing Wipes

Concerned about patient compliance with the post-op regimen of using only boiled water and sterile gauze to clean eyes?

Help Your Patients Maintain Good Eyelid Health

Add Pristine™ LidCare To Their Lid Hygiene Regimen

Pristine™ **LidCare** Sterile Sting-Free Cleansing Wipes

Eyelids are probably the only part of human body surface that is seldom cleaned thoroughly. The natural capacity of the body to cleanse the eyelids diminishes with age. Pollution, Smoking & Eye Makeup etcetera only add unhygienic condition of eyelids margins.

Pristine™ **LidCare** wipes are saturated with a proprietary **STING-FREE** formulation that thoroughly cleanses the eyelids without stinging the eyes. The virgin coconut oil present in the formulation also works as an anti-bacterial and skin moisturizer.

The **FOAMING AGENT FREE** formula cleanses without irritating the eyes. Pristine™ **LidCare** wipes are a great way to ensure good lid margin hygiene and overall ocular surface health. They are so gentle that the lid margin may be thoroughly cleaned even with eyes kept open.

Their regular use may help prevent occurrence of Blepharitis. Good hygiene also means absence of dead skin cells near the lids which is food for Demodex mites and thus less reasons for Demodex to thrive.

Why Pristine™ **LidCare** ?

Pristine™ **LidCare** are sterile Sting-Free eyelid and makeup cleansing Wipes impregnated with a special formulation containing Virgin Coconut Oil, Aloe & Vitamin E. They provide a safe, gentle, effective & thorough cleansing of eyelids and helps maintain health & hygiene of eyelids.

- Gently Removes Secretion and Residues
- Gamma Sterilized
- Clean the eyelids even with eyes open
- Individually-Packed Sterile Wipes
- Doubles Up As A Makeup Remover
- Maintain Good Eye Hygiene

Product Specifications:

Unfolded Size: 16 cm x 15 cm
30 individually-packed wipes per box
26 boxes per carton
